Law Firm Operations

CRM, practice management, billing and ad spend in one view. (All data is synthetic, generated for this project.)

Date Range

10/1/2025 — 9/30/2026

Billed	Collected	Retained Clients	Utilization	Receivables Over 90 Days
$3.26M	$2.77M	263	93%	$246K
Unbilled Work **$474K**	Collection Rate **85%**	Lead Count **2545**	Realization **89%**	Share Over 90 Days **43%**

What Needs Attention

Lead Outage

Google Ads leads collapsed in the weeks of 9 Mar 2026, 16 Mar 2026, 23 Mar 2026. About 43 leads were lost while ad spend continued. Check the web form and tracking integration.

Workload

Workload is uneven: E. Schultz is at 106% of capacity while G. Brooks is at 74%.

Slow Collections

Personal Injury has the slowest collections: 56% of its receivables are more than 90 days old.

Channel Cost

Facebook Ads costs $4,295 per retained client, versus $298 for Website Organic.

These checks run every time the pipeline runs. A FAIL stops the data from refreshing, so the dashboard never shows numbers built on broken data

Automated Quality Checks

Check	Failing Rows	Status
Entries flagged for human review	13	WARN
Every matter has a unique ID	0	PASS
Every practice area mapped	0	PASS
Invoices never exceed billed amount after cleaning	0	PASS
Matters link to a CRM contact	7	WARN
No time entries dated in the future	0	PASS
Time entries link to a known matter	0	PASS

What the Pipeline Cleaned

Table	Issue	Rows Affected	Action
contacts	Duplicate contacts (same email, different casing or spaces)	176	Kept the record furthest along the funnel
contacts	Inconsistent source casing	118	Mapped to standard channel names
contacts	Mixed date formats (epoch ms, ISO, US)	4317	Parsed to a single date type
invoices	Paid more than billed (data entry error)	5	Capped at billed amount and flagged for finance
matters	Practice area labels in 17 different spellings	293	Mapped to 5 standard practice areas
time_entries	Exact duplicate rows from repeated exports	126	Removed
time_entries	Missing billing rate	194	Filled with attorney's standard rate
time_entries	Negative hours (sign error)	36	Converted to positive
time_entries	Over 12 hours in one entry (likely decimal slip)	13	Divided by 10 and flagged for review
